

Denny Arfansyah

dennyarfansyah.com | +62 812 9107 5099

iOS Developer with **6+ years of experience** building scalable iOS applications in high-impact industries, specializing in **Swift, UIKit and SwiftUI**. Currently working as an **Freelance iOS Developer** that is responsible for feature development and maintenance of an **iOS application**. Collaborating closely with backend engineers to **deliver end-to-end features, writing clean and unit testing**. Passionate about **continuous learning** and **aiming to grow into a Senior iOS Developer** role through and deeper architecture involvement.

EXPERIENCES

Intikom

Jakarta

Squad Lead iOS Developer

May 2026 - Present

- Developing and maintaining **bale by BTN**
- Led a squad to breakdown and technical planning from product grooming sessions, aligning engineering execution with product requirements.
- Participated in agile ceremonies (backlog grooming & sprint planning), contributing to technical estimation and feasibility analysis
- Collaborated cross-functionally with Scrum Master, Business Analyst, Backend Engineers, Product Owner, and QA for seamless API integration and delivery
- Performed code reviews and upheld coding standards to maintain codebase consistency

Key Achievements:

- Delivered over **3 features** and still counting that contributing to a key product milestone.

Silentmode Sdn. Bhd

Remote

Software Developer

Jul 2025 - Mar 2026

- Developed and maintained **RONPOS iPad applications** for Shell Singapore and Shell Malaysia
- Participated in agile ceremonies (backlog grooming & sprint planning), contributing to technical estimation and feasibility analysis
- Owned feature development end-to-end using **Clean Architecture principles**
- Collaborated cross-functionally with Backend Engineers, Product Owner, and QA for seamless API integration and delivery
- Performed code reviews and upheld coding standards to maintain codebase consistency

Key Achievements:

- Delivered over **3 features** and still counting that contributing to a key product milestone.

Infosys Solusi Terpadu

Jakarta

Software Developer (iOS Developer)

Sep 2023 - Jul 2025

- Developing and maintaining **Digital Banking iOS application (OCTO Mobile by CIMB Niaga)**, maintaining **4.9 App Store** rating with over **130K+**
- Actively participated in backlog grooming and sprint planning, providing technical input on feasibility and estimation.
- Took ownership of assigned features, following **clean architecture principles**.

- **Engaged** in cross-functional **collaboration with** Backend Developers, Product Owner, and QA to ensure seamless API integration and feature delivery.
- **Contributed to team** knowledge-sharing by performing **code reviews** and **maintaining consistency with coding standards**.
- Ensured high code quality through unit testing to achieve over **90% test coverage**.

Key Achievements:

- Delivered over **4 features** and still counting that contributing to a key product milestone.
- **Worked alongside team members** to ensure a smooth Go-Live and took an active role in resolving problems if needed.

ADI Consulting

Jakarta

iOS Developer

Aug 2022 – Jun 2023

- Developed and maintained **Digital Banking iOS application (Livin' by Mandiri)**, which one of the largest banks in Indonesia
- **Received and interpreted product documentation** and technical specs to build functional and scalable iOS modules.
- **Collaborated closely** with Backend Developers to integrate RESTful APIs, debug integration issues, and align on data structure requirements.
- **Participated in daily stand-ups and sprint discussions** to ensure alignment with team goals and product milestones.
- **Focused on delivering clean, maintainable code** using architectural patterns using VIPER as defined by the project.
- **Handled revisions and updates** based on QA and stakeholder feedback to ensure high-quality user experiences.
- **Performed unit testing to achieve over 80%** to validate features and reduce regression before release.

Key Achievements:

- Delivered over **5 features** that contributed to a key product milestone.
- **I teamed up** with colleagues **to support** the successful Go-Live and was ready to intervene if unexpected issues occurred.

RCTI+

Jakarta

iOS Developer

Sep 2021 – Jun 2022

- Developed and maintained **Media and Streaming application (RCTI+ Supperapp)**, which is a major television network in Indonesia
- **Conducted research on current Apple** UI/UX guidelines and collaborated with the Team Lead to assess and implement design choices.
- **Participated in daily stand-ups and sprint discussions** to ensure alignment with team goals and product milestones.
- **Collaborated effectively** with the development team to resolve any technical challenges.
- **Handled the application's release to the App Store**, ensuring all guidelines and standards were met.

Key Achievements:

- Delivered over **3 features** that contributed to a key product milestone.

- **Provided collaborative support** for the Go-Live process with team members, including preparedness to address and resolve any potential disruptions.

Octomate Inc

Singapore, remote from Batam

iOS Developer

Dec 2019 – Jun 2021

- **Contributed to the creation of Octomate** by designing, developing, and implementing it.
- **Researched Apple's latest UI/UX design principles** and worked with the Project Lead to evaluate and implement them.
